The Monte Carlo® by Bassford Billiards

THE BASSFORD TRADITION

In the hustle and bustle of New York City in the early 1800's when locals wanted to relax, they gathered at their favorite clubs for conversation and a friendly game of pool. At that time – on Fulton Street across from the famous Barnum Museum – stood one of the most fashionable and popular billiard clubs around...Bassford's.

Today, you don't have to venture out to clubs and pubs to enjoy a game of pool. That's because the Bassford Active Home Collection puts this same tradition of elegance, relaxation and fun right into your own home for friends and family to enjoy. We know that value, style and playability are important to you so we make sure that every Bassford pool table Looks Great... Plays Great... and is Built to Last a Lifetime!

LOOKS GREAT...

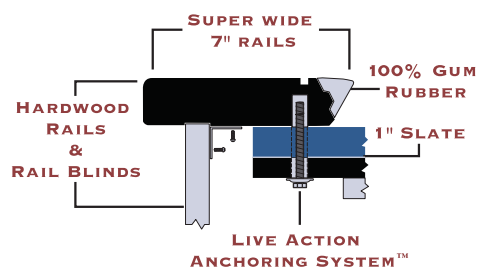

A modern meeting of the minds for fashion and function the **Monte Carlo®** by Bassford has an ability to create a stunning energy in almost any environment. Sculptural quality and clean architectural lines define this airy and expansive piece making it pleasing to view from any angle.

Premium hardwoods and veneers enhance the clean architectural lines of the **Monte Carlo®**. The transitional style allows the **Monte Carlo®** to fit into a wide range of today's decors. The **Monte Carlo®** is another original design from the **Bassford Home Collection™**.

PLAYS GREAT...

With the exclusive **Bassford ProForm™** playing surface, you can be confident your pool table will always perform flawlessly. Whether or not you make the shot is entirely up to you!

- **Bassford Certified Slate** - one inch slate - diamond honed to within 1/100th of an inch... critical to any solid, perfectly smooth and level playing surface.
- Precision mounted and cut, **100% gum rubber cushions** with canvas control fabric.
- A **rail anchoring** system that eliminates voids or “dead spots” between the cushion and the rail.
- The **Monte Carlo®** comes with **super-wide 7 inch rails** which provide a stable platform for making all of the toughest shots.

BUILT TO LAST A LIFETIME...

The **Bassford ProForm™** playing surface is supported structurally with machine bolted frame and leg assemblies. And, interlocking cross and center beam supports prevent frame warping and twisting.

All Bassford pool tables meet or exceed tournament play standards for strength, table top deflection, dimension tolerances, cushion response and accuracy set by the **Billiard Congress of America**. Furthermore, Bassford stands behind each table with an industry leading Lifetime Warranty.
